
Capabilities – Contingency Basing Integration Training & Evaluation Center (CBITEC)

Operational Energy

- Alternative Energy
- Energy Storage Technology
- Flywheel Technology
- Prime Power (500 kilowatts to 600 volts and above)
 - Power Plant
 - Line Distribution (medium voltage)
 - Secondary Distribution Center (SDC)
- Tactical Microgrid

Operational Water

- Gray Water Treatment and Reuse System (G-WTRS)
- Hydro-panels
- Mobile Water Resilience
- Water Reclamation

Joint Construction

- 3D Printing
- General Construction
- Materials Research
- Modular Construction

Additive Manufacturing

- 3D Printing

Autonomous Infrastructure

- Augmented Sensors
